Beschreibung

Company WebSite Builder PRO 1.6 is a perfect solution for those who want to build and maintain a dynamic e-commerce store with shopping cart module integrated. It also works as a Content Management System that is easy to install and manage without HAVING to FTP upload the pages every time they need to be updated.

Features include:

- Easy customization with config script
- Web-Based Administration
- Search Engine Friendly URL
- Based on TEMPLATES, easy to modify for your wish!
- Easy install and setup based on browser
- WYSIWYG editing on forms
- PRODUCT, VENDOR, USER, ORDER management
- Unlimited categories and subcategories
- Order history
- Send to friend
- Print a product
- Member subscription with e-mail activation
- Disable member
- Featured products selection to first page
- Newsletter distribution
- Shopping cart support
- Search engine based on keywords
- Credit card payment through third party payment gateway (2checkout.com)
- Offline payment (Wiretransfer)
- Password protected pages
- Feedback forms
- Multi-language admin interface
- Multiple languages support
- Currency exchange
- Discount apply on final order based on price
- Quantity in stock admin
