Description

Start now your banner exchange web site and earn money from selling banner credits or ad space. Your members show banners on their sites and in return their own banner is displayed across the banner exchange sites for free. You can easily

setup many functions like the banner ratio, bonus credits and referral signup credits. This PHP script also offers the possibility to manage your site ad space through a separate system. A further highlight is the contact form including captcha security image to prevent spam.

More features:

- Referral system
- Admin panel to manage members, referrals and banners.
- Ability to approve banners.
- Automatic email to the admin, when a banner is waiting for approval.
- Easy newsletter system.
- Ability to choose the email subjects for the contact form.
- PayPal integrated.
- Banner statistic on the main site.
- Member area to add banners, view referrals and get the html code.
- 24 hour real-time statistics.
- Easy site navigation.
- Same login page for the admin and members.
- Detailed installation and setup instructions.
