Description

With this PHP Video Search Script, you can build your own high traffic site like YouTube, without video hosting costs. Your users are able to search, watch and rate the videos on your site. By the way your website will automatically and unique filled with thousands of popular videos. In a few days your site will be a video site with popular content generated by your users. And the best: You don't have to host the videos or pay for the bandwidth, because all videos are hosted by YouTube, Metacafe, Dailymotion and ClipMoon. Video sites have a great earning potential and a lot of visitors. Simply paste Affiliate or other Ads to your site, add your site to the most popular bookmark sites and you are able to easily earn money without doing anything. You get a full featured php video script for a really affordable price!

With the Multi Language Module of the script you can easily run your website in any country with every language. A german language translation is already included to the script. But if you want, you can disable the Multi-Language Module, and easily run the script with the language of your choice.
